Wholesale and Enterprise Colocation Options

Get reliability, connectivity and security for your server, storage and network infrastructure.

- > Shared and Dedicated Racks
- > White Space Subscription
- > Build to Order Facilities

Services

 Colocation Solutions	 Cross-Connects
 Cloud On-ramp	 Peering with multiple IXs
 Direct Peering with AWS, Azure and Google cloud	 Remote Hand Service

Data Center Specifications

Building Specifications

- > Located in Data Center belt of North India, serving states of Delhi/NCR,
- > Uptime Tier III Certified facility
- > Firm concrete building
- > Standalone, Purpose built facility
- > Gross Raised Floor Area:
6,000 sq.ft. - Phase 1
35,000 sq.ft. - Planned in Phase 2
- > 70,000 sq.ft. gross space
- > Easy Road/ Metro Railway access
- > Office space and parking available

Data Center Specifications

- > 1 MW Total Power (Phase 1)
- > DX-Air Cooling System
- > UPS with N+N Redundancy
- > Diverse feed for Utility Power
- > Back-up Power - Generator N+1
- > 6 layer security
- > Laser based VESDA Fire protection system
- > Fire Suppression: NOVEC 1230
- > 24x7x365 accessible

Network Connectivity

- > Carrier Neutral Interconnection Ecosystem
- > All major Telcos present
- > 3 Internet Exchanges: NIXI, DE-CIX, Extreme IX
- > Direct Peering with AWS, Azure, Google Cloud
- > Dark fiber connectivity available
- > IP bandwidth and GRE tunnels across all major DCs
- > Diverse fiber routes

Compliance

- > ISO 9001-2015, ISO 27001:2013, ISO 20000-1, ISO 22301
- > SAP HANA - Operations, SAP - Hosting Operations, SAP - Cloud and Infrastructure Operations
- > HIPAA
- > GDPR
- > PCI-DSS
- > CERT-In Empanelment
- > TIA 942-B
- > MeitY empanelled for Government Cloud

D-230, Sector 63, Noida (Delhi NCR), Uttar Pradesh 201301.
