WEB WERKS MUM-1
HYPERCONNECTED DATA CENTER

Web Werks MUM-1 data center is a 50,000 sq.ft. well-equipped, next-generation, Uptime Tier III designed data center with 4MW of power, multi-tier security, rich interconnectivity and top notch facilities. MUM-1 DC is fed from multiple separate sub-stations and offers redundant power. Telecom providers connect to the DC from diverse entry points for resilient network. Web Werks rich Interconnection Ecosystem offers connectivity to 8 large Carriers, 160+ ISPs and 3 major Internet Exchanges; NIXI, DE-CIX, Extreme IX.

Cutting-Edge Infrastructure for Digital Business

| **3** TIER III Data Centers	**6** Layer Security	**99.982%** Uptime Guarantee	**N+2** Redundancy	**850+** Active Enterprise Customers

Wholesale and Enterprise Colocation Options

Get reliability, connectivity and security for your server, storage and network infrastructure.

> Shared and Dedicated Racks

> White Space Subscription

> Build to Order Facilities

Services

- Colocation Solutions
- Cross-Connects
- Cloud On-ramp
- Peering with multiple IXs
- Direct Peering with AWS, Azure and Google cloud
- Remote Hand Service

Data Center Specifications

Building Specifications

> Located in Data Center belt of India

> Uptime Tier III Certified facility

> Firm concrete building/ IT park

> 25,000 sq.ft. gross raised floor space

> 50,000 sq.ft. gross space

> Easy Road/ Metro Railway access

> Office space and parking available

Data Center Specifications

> 4 MW Total Power

> DX-Air Cooling System

> UPS with N+N Redundancy

> Diverse feed for Utility Power

> Back-up Power - Generator N+2

> 6-layer security

> Laser based VESDA Fire protection system

> FM200/ NOVEC 1230

> 24x7x365 accessible

Network Connectivity

> Carrier Neutral Interconnection Ecosystem

> 8 Telcos/ 160+ ISPs

> 3 Internet Exchanges; NIXI, DE-CIX, Extreme IX

> Direct peering with AWS, Azure, Google Cloud

> Dark fiber connectivity available

> IP bandwidth and GRE tunnels across all major DCs

> Diverse fiber routes

Compliance

> ISO 9001-2015, ISO 27001:2013, ISO 20000-1, ISO 22301

> SAP HANA - Operations, SAP - Hosting Operations, SAP - Cloud and Infrastructure Operations

> HIPAA

> GDPR

> PCI-DSS

> CERT-In Empanelment

> TIA 942-B

> MeitY empanelled for Government Cloud
